### Hydraulic Options

**Surcharge for Q-Series Loaders painted NH Blue, CH Red, JD Green, Kubota Orange, MF Red, Deutz Green (Expect Longer Laoatimes)**

See Note Page after each Brand Section

**FOR LOADER OPTIONS VISIT PAGE 44**

Several Other Implement Options Available. Starting on Page 46
10. Order conversion kit #5034021 (new loader to older valves)
11. US Width "ORDER BASIC LOADER"
28. Q4 and Q4s will fit if tires are less than 14.9X24
29. For Tractors built prior to 2004, use Hydraulic Set 150068AA, also fits tractors built after 2004 with 3 remotes
30. To use hydraulic set, Non Premium Tractors must be equipped with John Deere Power Beyond Plate
31. For "N" Narrow only use X21 or X26
32. X21, X26 not compatible with the front weight bracket
33. Tractor must be equipped with JD power beyond plate # R259621 and adaptor set # RE251179.
34. Q6/Q6s is compatible with 2WD
35. Order subframe 14324824 for tractors produced before SN 340001
39. If the tractor has Zuidberg front hitch, order subframe 14340044
41. Required to order part # RES8763 & R196840 from JD for hydraulic connection.
45. Power beyond plate for Hydraulic Set must be ordered from John Deere
46. Order conversion kit #5034021 (new loader to older valves)
49. Joystick Bracket will need to be fabricated for Cab Tractors
99. Subframe is Special Order. Longer leadtimes should be expected. Call for availability.
D1. Order Hose set 10378409A services the loader from the 2 remote valves. The male coupler tips are not included in the set.
D7. Tractor must be equipped with JD original Power beyond plate number: ALZ06034 (studs L173498 qty 3 is needed) or ALO PB-kit 5034184.

For Loader Options Visit Page 44

Several Other Implement Options Available. Starting on Page 46

IT IS RECOMMENDED THAT TRACTORS ARE EQUIPPED WITH ADEQUATE COUNTER-WEIGHT. PLEASE CONTACT YOUR SALES REPRESENTATIVE FOR MORE INFORMATION
46, Order conversion kit #5034021 (new loader to older valves)

81, 15199BAA will fit ROPS and tractors with factory cab joystick. Cab Tractors without factory joystick order 15197BAC.

82, For tractors without Bosch valve without a power beyond order Hydraulic Set 15063BAA.

83, For tractors without Bosch valve but with a Power Beyond plate between the 2nd and 3rd section, order Hydraulic Set 15044BAA.

84, On XTX215 Tractors with Serial Number less than JE3500994 use subframe 14320044.

85, Max Tire Size X31-X36 is 440 60R 24

86, Subframe will fit platform and footstep versions.

99, Subframe is Special Order. Longer leadtimes should be expected. Call for availability.

**$400** Surcharge for Q-Series Loaders painted NH Blue, CH Red, JD Green, Kubota Orange, MF Red, Deutz Green (Expect Longer Leadtimes)

**For Loader Options Visit Page 44**
5. For Tractors with Underslung Exhaust

10. Order conversion kit #5034021 (new loader to older valves)

11. US Width "ORDER BASIC LOADER"

18. Subframe includes Front Brackets only. If tractor does not have rear brackets, order 14321996 at $0 as well.

87. Base loader requires Extended Bearing Boxes

89. Tractors must be equipped with Power Beyond plate for the valve

90. Order Subframe set 14320725 for Serial Numbers prior to 116199B

91. Order Hyd Set 15087BAA for Serial Numbers prior to 116199B

92. For open-center systems, use valve kit no. 15089BAA

93. Q6/6s must be ordered with extended bearing boxes for supersteer models only.

94. If tractor does not have pre-installed connections to hydraulic auxiliary valve, use 15024BAA.

95. Order P/B Plate from New Holland for Open Center Systems

96. Order 15231BAA for Load Sense hyd system or twin pump tractors.

97. Order 15242BAA Load Sense Valve for double pump tractors.

98. Valve is serviced from the tractor remote valves

99. Subframe is Special Order. Longer leadtimes should be expected. Call for availability.

100. Subframe includes Front Brackets only. If tractor does not have rear brackets, order 14322836 at $0 as well.

101. The fuel line has to be modified on tractors fitted with dual fuel tanks. Rear axle extensions are not required on some models.

Hose Kits - Utilizing the Tractors Hydraulics.

For Tractors Equipped with Controls to Operate the Loader.

Part No. Model No Price
Hose Set - 2 Function Dimension Series -LCS $551
Hose Set - 3 Function Dimension Series-LCS $664

Available for Tractors that Utilize a Factory fitted Loader Control Joystick. Hoses connect to Mid Mount Valve.

Part No. Model No Price
5102162F Switch Kit - Add Electric switches to Tractor Joystick $177
10378005A 3 cylinder - 126” (LCS) $551
10378252A 4/6 cylinder - 165” (LCS) $551
Q-Companion - The NEW Digital Option for Q Series

The Q-series now introduces a digital platform into the world of loaders: Q-companion. An all-in-one digital solution for effective and safe front loader operation.

**Loader status monitoring**
User friendly gauge for displaying implement angle and loader height. For both angle and height, upper and lower, reference positions can be displayed. Get your loaded weight while working, without interruptions. Easy to use dynamic scale for weighing load during the lift cycle. The system provides intuitive visual- and audio-feedback to consistently enable the best possible result.

**Maintenance reminder**
Adaptive maintenance reminders for loader maintenance that are based on the actual use the loader, not the tractor.

**Diagnostics**
Operating hours, load cycle counting, hydraulic pressures and more.

## High Volume Buckets - HV and HDV

HV is a sturdy material and snow bucket. This series is aimed at users that need to move large volumes. The generous volume is achieved by designing the bucket deeper and taller. The HDV buckets are designed for professional users. The obviously sturdy design is noticeable in the steel plates that are 20% thicker compared to our other HV versions.

## Maxi Grapple

The bucket is based on the sturdy and reinforced HD bucket. Maxi Grapple is used for handling round bales (large 2 m opening), loose hay, brush and branches, loose silage, manure and for bucket work generally. Teeth, protective mesh and the grapple arm are easy to remove when you need to use just the bucket.

## Multi Purpose Bucket - MP and MPU

All models are available with Euro or Skid Steer hooks. Both the bottom and back of the bucket are made in a box design, which gives it a torsionally rigid and robust construction. The bucket has three hardened cutting edges: one at the leading edge of the bucket, one at the back edge and one in the digger blade's lower section.

## Snow Clearing Bucket

An implement which really does increase the utility value of the tractor and makes the most of its capacity - The 230SC PRO Special Clearing Bucket ticks these boxes. For example with this implement you can clear your snow-covered areas much more effectively, not least because your tractor can now be used for everyday professional snow clearance jobs. Other tasks such as clearing poultry manure can also be achieved.

Big Bale Fork
The Square bale fork is a simple and sturdy implement for both round and square bales. The tines in the lower box section can be installed 80 or 130 cm apart or one in the center section for improved capacity. The Square Bale Fork may be supplied with a U-shaped Rear extension that supports the top bale as an optional extra.

# Loader Implements

**Flexigrip**

The uniquely curved and rounded shapes as well as the 3.5” tubes contribute greatly to the very careful handling of both lying and standing bales. The long, curved tubes, are formed out of one piece, without any sharp edges.

**Quadrogrip**

QUADROGRIP IS THE BEST IMPLEMENT ON THE MARKET FOR HANDLING WRAPPED SQUARE AND ROUND BALES. The implement arms are seated on 350 mm wide, extremely stable sliding plates, which move along the main frame. When stacking, it is possible to lock either the right or left arm, which makes for easier work.

**Flexibal**

Flexibal is a strong and very flexible implement. The arms are operated hydraulically, with the rollers rolling under the bale. The steel tubes roll under the bale without damaging it when it is being handled. The generous length and diameter of the tubes distribute the pressure evenly over the bale preventing damage to the plastic wrapping when being handled.

**Topgrip**

Topgrip proposes a unique way of handling round or square bales. The arm extends over the bale and clamps the bale towards the back frame to pull the bale away from the stack. The arm falls behind the bale preventing any damage to the back of the bale.

LOADER IMPLEMENTS

Pallet Fork Walk thru

The step in the middle of the frame is rigid and non-slip. The secure guards prevent objects falling backwards on to the cab preventing damage or injury. There are 11 alternative stop locations for the fork tines. Each fork tine is adjusted using a flip over latch that safely locks the fork in location.

Available in:
Skid Steer And Euro

Manure fork

Our forks have a specially manufactured bottom beam with welded sleeves for the tines that will not be deformed or bent when in use. The tines are fitted before painting the implement – metal touches metal. An implement with a long service life.

Available in:
Euro Only

Silograb

Silograb is an extremely versatile implement. The close spacing of the tines practically eliminates the spilling of silage. The tines are mounted in a box section with welded sleeves. The tines make a circular motion through the material, which produces the cleanest cut.

Available in:
Euro Only

Silocut SG

Thanks to the hardened cutting knives on the front edge and sides of the Silocut this leaves a clean cut surface in the silage. Angled side knives ensure the material is cut towards the rear of the Silocut preventing tearing and create a clean side cut.

Available in:
Euro Only
LOADER IMPLEMENTS

Stonefork
The distinctive design provides considerable potential to fill the implement without dropping any of the stones already in the bucket. Mounted at the front end are hardened tines made of Hardox steel which point downwards. After many hours of hard work, it is then easy to replace these tines.

Powergrab
A very powerful universal implement with high work throughput. Well suited for silage as well as for many other demanding grabbing and scooping tasks. Powergrab is primarily designed for handling silage, but is also suitable for various grabbing and scooping work.

LIMITED LOADER WARRANTY - Dimension / Versa X / 100 Series

Alo North America Inc., (hereinafter referred to as Alo North America), warrants each part of the products manufactured by it to be free, under normal use and service, from defects in material and workmanship for a period of twenty four (24) months from the date of delivery to the initial purchaser at retail, or six (6) months from the first day of rental.

If it appears during the warranty period, determined from the date of delivery to the original purchaser, that the equipment does not meet the warranty specified above, and purchaser returns the equipment at his expense within the warranty period to his selling dealer for inspection, Alo North America will correct, or authorize its dealer to correct any defect resulting from defective parts or workmanship by replacing the defective part(s). Labor allowances will be considered in instances where a loader component(s) is repaired as an alternative to replacement. Repair costs shall not exceed the replacement cost of the components(s). Upon the expiration of the applicable warranty period, all such liability shall terminate. This warranty shall not apply to any product or replacement part that has been subject to misuse, negligence or accident, or in which parts not made or supplied by Alo North America are used, if in the sole judgement of Alo North America such use affects its performance, stability or reliability. This warranty shall not apply to any product or replacement part which shall have been altered or repaired outside the manufacturer’s factory in a manner which in the sole judgement of Alo North America affects its performance, stability or reliability. Alo North America does not warrant items that require repair or replacement considered to be a result of normal maintenance unless contaminated or damaged by failure of a warranted loader equipment part.

Replacement parts are warranted for a period of ninety (90) days from date of sale. Replacement parts used in warranty repairs are warranted for a period of ninety (90) days or the balance of the equipment warranty period, whichever is longer.

THE FOREGOING IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER WRITTEN, ORAL OR IMPLIED (INCLUDING A WARRANTY OF MERCHANTABILITY OR FITNESS FOR PURPOSE), AND SHALL CONSTITUTE THE SOLE LIABILITY OF ALO USA.

Limitation of Liability

Alo North America liability on any claim of any kind, including negligence, for any loss or damage arising out of, connected with or resulting from the order, or from the performance or breach thereof, or from the manufacture, sale, delivery, resale, repair or use of any goods or parts covered by or furnished under an order shall in no case exceed the price applicable to the goods or parts thereof which gives rise to the claim. In no event shall Alo North America be liable for special or consequential damages.
