DISC HAY MOWERS

DHM7 | DHM8 | DHM9 | DHM10

HAYMAKER  by Bush Hog®

HAYMAKER SERIES DISC HAY MOWERS

Oval discs allow for superior flow of material over the cutter bar and a better distribution of your hay crop.

Crop dividers come standard to provide clear distinction between cut and standing hay.

Bush Hog's latest edition of Hay Mowers includes 4 models with mowing widths ranging from 7' to 10' to meet the hay production requirements of today's farmers and ranchers.

Bush Hog® Features

- **DHM mowers have been performance tested** and proven to reduce plugging and wrapping in both light and heavy hay crops.
- **Each cutter bar** has been designed with added stiffness to provide exceptional strength in all working conditions.
- **Oval discs allow for superior flow** of material over the cutter bar and a better distribution of your hay crop.
- **Robust, double-sided steel knives** are perfectly timed to overlap at just the right distance to provide a smooth, clean, clog-free cut.
- **The gear-driven cutter bar** houses oiled and sealed bearings to reduce contamination and provide ease of maintenance.
- **A hydraulic mower bar cylinder** effortlessly lifts the unit for end of field turns and transport (DHM8, DHM9, DHM10).
- **Ground pressure of the cutter bar** can be easily adjusted for a variety of ground conditions (DHM8, DHM9, DHM10).
- **Crop dividers come standard** to provide clear distinction between cut and standing hay.
- **Mowers feature a mechanical breakaway** to protect units from damage when striking an unexpected obstacle.
